

THE ULTRA LIGHT NOTEBOOK WITH THE UNIQUE OPEN MULTI DRIVE. TOUGHBOOK CF-W5

Intel® Centrino® Duo Mobile Technology Genuine Windows Vista™ Business Shock absorbing 12.1" LCD magnesium alloyed casing (withstands pressure of up to 100kgf)

Integrated Multi Drive (DVD-R/RW and CD-R/RW)

Silent fanless design

Optional integrated UMTS/HSDPA module Compact, light design that weighs only 1240g Huge battery life of up to 10.5 hours Outstanding Mobility Factor of 8.47 Drop resistant from a height of 30cm

Information at www.toughbook.eu

Within the CF-W5's stylish design it has an integrated DVD Multi Drive (DVD-R/RW and CD-R/RW) with unique open top design and weighs only an astonishingly 1240g. Despite its low weight the CF-W5 is extremely robust – due to the special design of the magnesium casing: it withstands a load of up to 100kgf and protects the 12.1 inch large bright screen, which has anti-glare properties that provide a clear contrasting picture.

Thanks to the shock-resistant hard-disk the CF-W5 can also endure more forceful, unavoidable falls or drops without problems when out on the road or in the office. The CF-W5 survives drops from 30cm with ease. This makes it the ideal companion for sales representatives, business travellers and frequent flyers, who will save in the amount and weight of luggage they carry when they can't do without reliable laptop protection. The optional integration of UMTS/HSDPA also allows you constant accessibility – almost everywhere.

Thanks to integrated Intel[®] Centrino[®] Duo Mobile Technology the slim notebook guarantees you wireless access to data and information at thousands of WLAN hotspots worldwide. In addition the CF-W5 offers you many other advantages: the fanless design allows you to work in silence; the high-performance lithium-ion battery and carefully selected components allow an operation time of up to 10.5 hours – enough to accompany you throughout a whole working day.
