Panasonic recommends Windows Vista® Business

With an extra large display and stereo loudspeakers, the Toughbook Executive CF-Y7 is all set for presenting. Yet in spite of its 14.1" LCD display and its rugged build it only weighs 1,550g. Its robust magnesium alloy case protects the integrated open-top DVD multi drive against up to 100kgf pressure and falls of up to 76cm. Additionally, your data is protected by a shock resistant hard drive. The water resistant keyboard keeps liquids from entering the inside of the CF-Y7.

The Intel® Centrino® processor technology with WLAN ensures maximum wireless communication. An optional UMTS/HSDPA module enables fast data transfer, even when WLAN hotspots are out of reach. You can work for up to 7 hours independent of external energy sources due to its powerful Li-Ion battery. Enjoy more than just visual freedom.
